OBJECTIVE

Having worked for two different software companies, I have always been interested in engaging users with applications in a meaningful way. A few months ago, I finally took the plunge and decided to dedicate myself to web development full-time. I am currently seeking a junior developer position in a fast-paced, team-orientated environment, where my nimbleness in finding new solutions and fondness for learning new pieces of the stack can be put to good use.

EDUCATION

University of North Carolina at Chapel Hill
Kenan-Flagler Business School

BS Business Administration, Second Major: Asian Studies
Minor: Hispanic Studies, Graduated May 2011, **ACT: 35**
GPA: 3.43 SAT Math: 790 SAT Verbal: 770

BLOC Full Stack Alumni

<https://www.bloc.io/web-development-bootcamp>

Boot camp topics include: Ruby on Rails, Javascript, AWS, Devise, Github deployment, Heroku, SQL, and more.
Graduated June 2015

WORK EXPERIENCE

L.A.B. Equipment, Itasca, IL *Web Site Project Lead* May 2015 - Present

- ❖ Overhauled the current company web site to provide a modern design on an easy-to-update platform.
- ❖ Migrated existing and new content to a Wordpress.org platform, while incorporating new plug-ins and PHP theme edits.
- ❖ Redesigned the front-end look and feel through custom CSS and Bootstrap components.
- ❖ Provided a thorough manual for future content changes and an open dialogue for feedback throughout the design process.

FactSet, Chicago, IL *Investment Management Consultant* September 2013 - January 2015

- ❖ Managed and cultivated client relationships with 175+ investment management professionals in the Greater Chicago area. Support included one-on-one user training, product demos and Excel project work.
- ❖ Responsible for presenting new software features to end users and incorporating solutions into their daily workflow. Worked with internal product development and engineering to integrate client feedback into the next development cycle.
- ❖ Facilitated internal beginner courses in FactSet's proprietary coding language, in addition to leading advanced courses and monthly challenges.
- ❖ Earned the Quarterly Client Satisfaction Award for having the highest rated client feedback across all North American consultants.

Epic, Madison, WI *Project Manager, Pharmacy Application* August 2011 – September 2013

- ❖ Oversaw the successful installation of Epic's pharmacy software at a large academic hospital.
- ❖ Provided the customer with guidance and support on software configuration. Setup weekly meetings, workflow demonstrations, and maintained a detailed project plan to keep the installation on time and under budget.
- ❖ Developed creative strategies to address unique customer workflows. Worked extensively with the customer to achieve operational sign-off and complete the implementation of these workflows.
- ❖ Gained in-depth industry knowledge around pharmacy finance, Meaningful Use EHR requirements, and pediatric workflows.

SKILLS

Ruby on Rails, JavaScript, HTML5, CSS/SASS, Amazon Web Services (S3), Devise, Github, Heroku, SQL, TDD with RSpec, and more.

INTERESTS AND HOBBIES

Proficient in Spanish, avid linguist and traveler, running enthusiast, amateur photographer, dog lover and occasional Agricola night winner
